

Impact of E-Learning on Teaching and Learning in Higher Education

Kishor Devidas Pakhale, Assistant Professor, KVN Naik Acs College, Sinnar, Nashik

Abstract

E-learning is the use of Internet technologies to enhance knowledge and performance. -learning refers to the use of Internet technologies to deliver a broad array of solutions that enhance knowledge and performance. Several efforts are currently progressing towards providing quality distance learning to more people in urban and rural areas, through the utilization of more effective web resources and practices. The major hindrance to the acceptance of e-learning can be attributed to the Indian mindset that is more inclined to traditional classroom teaching.

Keywords: E-Learning, Teaching and Learning
