Abstract

Educational leadership plays an important role in shaping the future of education system, particularly in the context of policy development and its implementation. In India educational policies such as the Right to Education Act (2009) and the National Education Policy (2020) analysis the importance of leadership at all levels of the education system, from schools to administration levels. Effective leadership is a milestone for the successful development and implementation of educational policies in India. This paper examines the role of educational leaders in India focusing on the alignment of leadership practices with National education policies. It emphasis the challenges faced by school leaders in rural and urban areas. This paper also highlights the influence of political, cultural and social factors on educational leadership and policy development.
