Abstract

The New Education Policy announced by Government of India (NEP 2020) was a welcoming change and fresh news amidst all the negativities surrounding the world due to the challenges posed by Covid-19 pandemic. The announcement of NEP 2020 was purely unexpected by many. The changes that NEP 2020 has recommended were something that many educationists never saw coming though the education policy has impacted school and college education equally, this article mainly focuses on NEP 2020 and its impact on Higher Education. This paper also outlines the salient features of NEP and analyses how they affect the existing education system.

The year 2020 has been an exceptional year for countries across the globe. In India, apart from Covid-19, one of the important changes that took place was the development of the New Education Policy (NEP) 2020. Time by time, various committees have recommended to increase the allocation of the budget for education to 6% of the GDP, this has lead to the interests of researchers. This paper aims to identify the concerns and focus of NEP2020. NEP-2020is an innovative and futuristic proposal with both positive and negative aspects, framed with the objective to provide a quality school education

and higher education to everyone with an expectation of holistic & research oriented progress. This paper initially depicts an overview of NEP-2020, distinguish the strengths & weakness of the policy at higher education & research part, evaluation of the implementation suggestions given in the policy, identifying and analyzing possible generic strategies for implementation of NEP-2020 to fulfill its objectives based on focus group discussions. The paper also includes many predictive proposals on issues like developing quality universities & colleges, institutional restructuring & consolidation, more holistic & multidisciplinary education, optimal learning environment & student support, transforming the regulatory system of higher education, technology usage & integration, and online & digital education. Finally, some recommendations are made to implement the NEP2020 effectively irrespective of various constraints.
