Humanities:

The study of humanities encompasses a wide range of disciplines, including history, literature, philosophy, art, music, and more. The primary objective of humanities is to explore and understand human culture, creativity, and expression throughout history. It involves critical thinking, empathy, and an appreciation for the human experience.

In the context of digital humanities, the objective is to examine how digital technologies impact historical and contemporary culture. This interdisciplinary field combines humanities research with digital tools and methods, aiming to preserve, reconstruct, and interpret the human record using information technology

Computer Science:

The objective of computer science is to study algorithms, data structures, programming languages, and computational theory. It involves designing and developing software, analyzing complex problems, and creating efficient solutions. Computer scientists contribute to technological advancements, automation, and innovation across various domains.

Management:

Management focuses on organizing resources (such as people, finances, and materials) to achieve organizational goals. The objectives include effective leadership, decision-making, strategic planning, and efficient utilization of resources. Managers play a crucial role in ensuring the success of businesses, nonprofits, and government agencies.

Health:

Healthcare Information Systems: The objective is to transition from paper-based health records to electronic systems. These systems store health information, facilitate communication, and enhance decision support for healthcare providers.

Health Humanities: This interdisciplinary field draws on the methodologies of humanities, fine arts, and social sciences to provide insight, understanding, and meaning to people facing illness. It enhances empathy and responsiveness in healthcare professionals.

Healthcare Management: Objectives include understanding the lived experiences of management, addressing the "tyranny of metrics," and confronting anxiety in healthcare management.
